COVID precautions: Chemstations requires that all in-person training attendees attest that they will be fully vaccinated for COVID-19 fourteen days prior to the in-person workshop, or will have negative COVID-19 test results within 72 hours of arrival. Face masks will be required to be worn for all persons. Face coverings may be removed when actively eating, drinking, or presenting. These policies are subject to change.

Registration/cancellations: Chemstations reserves the right to cancel/reschedule any workshop, in which case all fees will be refunded. If an attendee must cancel after fee payment, Chemstations will apply a credit in the amount of that fee toward a future workshop. Attendee substitutions may be made at any time.
